

## What Are Laradon WORK TEAMS?

A Laradon Work Team is a crew of four to six **Hardworking** Individuals who are **Ready, Capable** and **Willing** to meet your Employment Needs.

We have workers experienced with:

- Assembling
- Packaging & mailing services
- Order fulfillment & distribution
- Clerical tasks
- Recycling
- Janitorial
- Stocking
- And more!

## How Can Laradon WORK TEAMS Benefit Your Business?

- We provide exceptional services and guaranteed results.
- We train our workers to your specifications.
- A flat rate for the work results in decreased labor cost.
- Laradon provides supervision and quality assurance while the team works.
- Our work teams bring diversity to your workforce.
- We have a dependable workforce committed to improving your business's productivity with capable, motivated employees.

## Setting Up a WORK TEAM For Your Business

### Where does the team work?

We perform the job at your place of business.

### Who trains and supervises the team?

You train our staff who in turn supervise the workers, perform quality control to your specifications, and manage time cards and production of the workers.

### Who pays the workers?

Laradon handles all payroll responsibilities. Laradon's billing rate covers employee wages, worker's comp insurance and all applicable taxes, keeping your cost low!

## What is the Billing rate?

We contract with your business to complete work at the volume/frequency you need. Each contract fee is unique based on the type of work.

We invoice you according to how much work was actually produced, plus a small overhead fee. You only pay for work completed!

*“As a small business owner I have found it is very affordable to have Laradon workers count, bag and label our merchandise. This is work that we do not have time for but work that makes our sales much more competitive. I appreciate that workers are transported, supervised and paid by Laradon. Getting one invoice a month for the work that was done is hassle free!”*

**Mary Broyles**  
Owner, Ornamental Beads

## It Is EASY To Get Started:

We will tour your business to see the job you need done and check out the work environment.

We time study how long it would take to complete the work, then calculate a bid and submit for your consideration.

Once the bid is accepted, we enter into a contract with your business specifying the rate of pay and hours worked, plus other customary terms of agreement.
